MERLYN™

it's all about the experience

We've built our name and reputation on a simple ethos – to deliver on everything we promise to our customers.

This is because you are at the heart of everything we do. We have a relentless desire to deliver the highest level of attention to detail.

Our award-winning customer service department – and the wider MERLYN team live this ethos every single day.

We're passionate about innovation, quality and design, and this is reflected throughout our ranges. Our unique approach has resulted in us becoming the No.1 shower enclosure brand in the UK and Ireland. When you choose a MERLYN shower you are investing in one of the world's most luxurious showering environments and you get the added peace of mind of our Lifetime Guarantee.

Thank you for choosing MERLYN.

The MERLYN Team

Follow us online @merlynshowering to keep up to-date.      

Award-Winning Customer Service

It is not about what we do but what we can do for you. We promise we will always be there for you at any stage of your journey with MERLYN. We have a genuine commitment to service and to finding a solution for you. Our specialised team's philosophy is to make everything easy for you and we will respond immediately to any request you might have.

We strive everyday to make excellence a habit. Contact our award winning dedicated team of specialists, who are on hand to give you a personalised solution to your query.

Why choose MERLYN Bath Screens?

MERSHIELD
STAYCLEAR

180° inwards swing

The signature piece of this range, the Two Panel Hinged Bath Screen features a secure 180° inwards swing which means you can position the glass where you can comfortably deflect water into the bath and not on to the floor!

Tested for quality & safety

All products are rigorously tested by us and by global health and safety experts to make sure they adhere to the highest quality standards.

Rise and fall

All Merlyn Bath Screens have a rise and fall hinge to make it easier for you to open.

HydraSEAL

Exclusive to MERLYN Bath Screens

HydraSEAL acts as an extra barrier, sealing the gap between the seal and the pivot point where water can usually escape.

It contains a high density foam that compresses onto the bath screen to form a tight seal and restricts water escaping from this problem area.

HydraSEAL creates a barrier to restrict leaking!

HydraSEAL is now available on our MB1, MB2, MB3, MB3A and MB3B bath screens.

Product Information

We have produced this product section to help you with your purchasing decision. For further information please contact your local stockist, details of which can be found at www.merlynshowering.com

Product information

All products are manufactured in accordance with EN14428 and utilise toughened safety glass to EN 12150.

All shower trays are manufactured in accordance with EN14527.

All doors feature adjustable wall profiles to compensate for out-of-true walls and have micro adjustment Features for fine tuning to obtain a perfect fit and operating action.

All enclosures, wetrooms and panels are Power Shower approved – will retain water under normal showering conditions.

Water retention is maintained in all products under normal showering conditions.

A selection of MERLYN enclosures are frameless in design. Spray/mist may escape therefore we would recommend use of these enclosures with tiled floors.

Opened cartons can not be returned. Returns carry a €40 box charge or €60 per unit where the sale is less than 30 days old. Returns over 30 days old will not be accepted.

All products are supplied complete with full installation instructions and the necessary fixings.

Check with your dealer for accurate matching of material samples. Product descriptions do not imply the use of precious or valuable materials.

Our policy of reviewing product design and development on a regular basis means MERLYN reserve the right to change product specifications and prices without notice.

Only 8mm wetroom panels and bath screens are covered by the Lifetime Guarantee. Please contact the MERLYN sales team for more details.

Glass shattering and parts subject to wear are not covered by the Lifetime Guarantee.

For full details on all product ranges please contact MERLYN Showering on 0808 1011429 or log onto www.merlynshowering.com.

Trays shown in this catalogue are for illustrative purposes only.

Images are for illustration purposes only.

The colours and finishes shown in the catalogue are as accurate as possible within the limits of the printing process. The positioning of all showering heads in the brochure is for illustrative purposes only.

All descriptions, specifications and particulars contained in this brochure are intended merely to represent a general idea of the products described herein and none of these form part of any contract to give rise to any independent or collateral liability upon the company.

Cleaning

- » It is important to clean your MERLYN shower door and tray after every use. Wipe down all the glass and metal parts with a soft cloth.
- » Do not allow lime scale to build up in hard water areas.
- » Ensure that any residual water on the glass is removed after every use.
- » Clean the glass regularly using soapy water.
- » Do not use abrasive products on any surfaces.
- » Install the enclosure in a well ventilated area.

Information and maintenance

Always read the instructions on the packaging, chrome is vulnerable to acid attack and some strong household cleaners including strong disinfectants, denture cleaners, hair dyes, wine making chemicals and photographic chemicals may contain acid. These materials may have a varying effect on the surface from black spots/streaks (which cannot be removed) to pitting the surface. Contact with these materials should be avoided.

Important shower tray information

It is up to the designer or installer to ensure that the tray and enclosure combination is arranged in such a way that water retention meets the customers needs.

- » The waste has the capacity to carry away 29L/Min. High powered systems may exceed this. Please check with the manufacturer.
- » Please ensure that the shower head is not positioned directly over the waste as this may restrict water flow rate.
- » Please ensure that the colour and size of shower tray are as per your order before installation.
- » You must inspect the product thoroughly before installation. Fitting the product is acceptance of quality.
- » The trays are handmade from natural material. Please allow for height variances due to manufacturing tolerances.
- » For open ended shower screens please consult your installer.
- » Shower trays must be fitted as per the fitting instruction. Deviation from the pre installation checks or fitting installation will void the guarantee.
- » When wet, the surface of the majority of shower trays will show an increase in the potential for slipping. This is particularly the case when soap, shampoo, bath oil etc. are used. It is important that designers, installers and users are aware of this.

Important

Although shower door and enclosure sizes are related to tray sizes it is important to note that most shower trays are tiled down to the rim, often over an 'up-stand'. The finished installation space may be less than the nominal tray size. MERLYN shower units are made to suit this remaining space.

Tray Finish min-max

The Tray Finish applies when fitting a door and a tray. These are the minimum and maximum dimensions that a shower door or enclosure will fit using standard wall profiles.

Tray finish

To find the correct Tray Finish dimension:

In a recess: Measure from the finished, tiled wall to the opposite finished, tiled wall.

In a corner: Measure from the finished, tiled wall to the edge of the tray.

Note: If the wall/walls are leaning in, this will further reduce your Tray Finish.

Adjustment

This is the min and max adjustment of the actual enclosure. These are the adjustment dimensions of the actual door excluding the tray. Therefore, these are the dimensions to follow when installing a enclosure in a wetroom application without a tray.

The guide below may be helpful in taking measurements to determine the shower door or enclosure size required. Dimensions given in this publication are in millimetres, are approximate and may vary with adjustment. They are subject to change without notice.

Please note that when a tray is fitted it is essential that the tray is level before any doors or enclosures are fitted.

Recess Location

Take the measurements after the tray is installed and the walls are tiled.

Bath Screens

- » MERLYN Bath Screens are not designed to fit on baths with stepped fronts, roll top rims or integral soap dishes.
- » Fitting of screen on baths which have raised head rests or shapes is not recommended.
- » There must be no items causing obstruction with the seal and bath, as any of the above may cause leaks.
- » When choosing your Bath Screen, please ensure that if your bath has bath handles, they do not interfere with the bath rim area where your screen will be placed.
- » When choosing an in-swing or folding Bath Screen, please ensure your swing area is not interfering with any brassware or internal shower Features. Similarly, when choosing an out-swing, please ensure the out-swing area is free from any obstructions.
- » It is recommended the shower head position is situated on the same wall to which the Bath Screen is fixed and in the centre of the shower area.

UKCA, CE & EN Information

The UKCA (UK Conformity Assessment) mark on MERLYN enclosures is the new standard marking for products on the market in Great Britain (England, Wales and Scotland). It is a declaration that the product complies with GB designated standards.

The CE markings on MERLYN enclosures is a declaration that the product complies with the essential requirements of the relevant European health, safety and environmental protection legislation.

EU and GB legislation requires manufacturers to display either the UKCA mark for Great Britain and a CE mark for the EU and Northern Ireland on their product or packaging. It is an offence to place a product on the relevant market without a UKCA for Great Britain or CE marking for the EU market.

The manufacturer is legally responsible for ensuring that the product conforms to the requirements of both directives.

The European Commission thus refers to the CE marking as a "Passport" which allows products to be freely circulated within the EU single market. The UKCA marking allows products to move freely within Great Britain.

Often consumers will consider the UKCA and CE markings on a product as an indication of conformance to laid down minimum standards and therefore, a minimum level of safety which other products may lack. Both markings are often seen by consumers as a "Symbol of Safety."

MERLYN invests heavily in its product development and as such guarantees that its glass fully complies with regulations and is manufactured in accordance with BS EN 14428. The rigorous testing of the glass ensures that the endurance, stability and water retention criteria meet high industry standards.

New GB, EU and NI label

ISO Certification

MERLYN has implemented an Integrated Management System comprising of Quality Management, Environmental Management and Occupational Health and Safety Management. An Integrated Management System ensures the seamless integration of several different standards into a common system that meets the requirements of each of these standards. These certifications are proof of MERLYN's credibility but also to instill confidence in our potential consumers that MERLYN will keep its promises.

Brochure Recycling

Please be aware our cover is non recyclable. Remove cover before recycling the internal pages.
