At **Niko Bathrooms,** our "**ABOUT US**" is truly **ABOUT YOU**.

At Niko Bathrooms, you are at the core of everything we do. As we celebrate a decade of excellence, our mission remains steadfast: to fulfill your vision by sourcing only the finest products available. We are dedicated to offering bathroom solutions that seamlessly blend exceptional quality, innovative design, and cutting-edge technology.

Your experience with us is meticulously crafted to exceed expectations at every turn. From the initial concept to the final touches, we prioritise your needs and preferences, ensuring that your dream bathroom becomes a reality. Our commitment to unparalleled customer satisfaction drives us to continually enhance our offerings and services.

Thank you for being an essential part of our journey. Your satisfaction is not just our goal but our greatest success. At Niko Bathrooms, we believe that a satisfied customer is the true measure of our achievements. We look forward to continuing to serve you with the highest standards of excellence in the industry.

Our **TRADITION**

Niko Bathrooms, part of the UEL Group, has been a trusted distributor of plumbing and heating products in Ireland since 1983, building a legacy of reliability and excellence; tradition is built on trust, and at Niko Bathrooms, we honour this by consistently delivering exceptional products and service to our valued customers throughout Ireland.

Your TRUST

Our diverse range of designs, sourced from leading international manufacturers, is produced to the highest standards, ensuring both quality and durability.

The success of the UEL Group over the past 30+ years is built on our unwavering commitment to customer service and product excellence. Our knowledgeable sales team, with over 250 combined years of experience in the plumbing industry in Ireland, exemplifies the trust and tradition that define our brand. Our external salespeople regularly cover all 26 counties, supported by an internal s and distribution am that ensures orders are swiftly assemble and dispatched.

Elevate your bathroom's aesthetic with the Phoenix, a sophisticated addition to the Niko Bathrooms furniture range. This sleek unit boasts soft-close drawers and doors with integrated organisers, ensuring smooth, quiet functionality. Its antibacterial, matt lacquered finish adds a touch of elegance and hygiene. The Phoenix features full-extension drawers with integrated wooden handles for a seamless and modern look. Available in three stylish colours and two versatile sizes, this piece effortlessly transforms your bathroom into a refined and contemporary sanctuary.

MIRRORS & CABINETS COLLECTION

Our range of LED Mirrors and Mirror Cabinets offers the perfect combination of style, functionality, and modern design to enhance your bathroom.

LED Mirrors

Featuring integrated LED lighting, our mirrors provide soft, ambient illumination, ideal for detailed grooming, makeup application, or creating a relaxing atmosphere. The built-in demister function ensures a clear, fog-free reflection, even after the steamiest showers, adding both convenience and comfort to your routine.

Mirror Cabinets

Our mirror cabinets are crafted to offer both elegance and practicality, providing ample storage space to keep your bathroom organised and clutter-free. These cabinets feature sleek, minimalist mirrors that effortlessly enhance your bathroom's aesthetic, while their robust construction ensures lasting durability and a refined finish.

Together, our LED Mirrors and Mirror Cabinets bring modern design, convenience, and style to your bathroom, making them an essential addition to any home.

How to Select Your Bathroom Toilet and What Are the Choices?

There is a lot to consider when choosing a new toilet, let's start with the types and features of each one:

Open back toilet is where the back of the pan does not touch the wall. This allows for easy access to the pipework at the back of the WC.

A back to wall tollet is installed directly onto a supportive wall while the cistern can be concealed by a back to wall unit or within the wall itself making them aesthetically pleasing and a space saving option.

A semi shrouded toilet is where the waste pipe and water inlet are semi enclosed within the ceramic, giving access to the pipe but not visible.

A fully shrouded toilet, is where the waste pipe and water inlet are fully within the ceramic, so the toilet sits flush against the wall. This makes it easier to keep clean, with no crevices or germ traps.

The toilet bowl is mounted onto the wall using a support frame. Like back to wall toilets, the cistern is concealed within the wall, accessible via the flush plate. This makes them aestethically pleasing and very practical when it comes to cleaning.

Equipped with advanced features like bidet functions, heated seats, and automatic flushing. Enhanced comfort and hygiene, modern technology.

Comfort height bowls are 440 to 480mm high. A standard height is 400mm. The extra height can be good for the knees and back and can offer other benefits to the taller people, elderly and people with mobility problems.

The low level is generally a traditional style toilet which has a connecting pipe from the cistern to the pan. Our medium level toilet is operated by a lever flush.

This is the ultimate in traditional style, with the cistern positioned high up on the wall behind the pan, with an old-fashioned pull chain flush. The cistern is connected to the pan via a long stainless steel pipe.

A rimless toilet is simply a toilet without a traditional rim. Instead of water flowing into the bowl all the way around the rim, a direct flush technique directs water around the edge of a smooth pan. Rimless toilets are easy to clean and more hygienic than a traditional toilet pan.

What else should I consider?

Space Available:

Measure the available space in your bathroom to determine the size and type of WC that will fit comfortably.

Style Preferences:

Consider the overall design and aesthetic of your bathroom. Modern, traditional, or minimalist styles.

Comfort and Height:

Ensure the WC is at a comfortable height, especially for elderly or disabled users.

Water Efficiency:

Look for WCs with high water efficiency ratings. Dual flush toilets offer options for different flush volumes, saving water.

Installation Type

Determine if you need a floor-mounted or wall-mounted WC. Wall-mounted WCs can save space and provide a modern look but may require more complex installation.

Maintenance

Consider the ease of cleaning and maintenance. Some WCs have rimless designs or special features that make cleaning easier.

CREA

Our CREA range of WCs comes in rectangular and oval shapes, fully shrouded an wall hung options, SIAMP fittings as standard and slim soft close toilet seats. The CREA range also feature the rimless technology ensuring a easier way to clean and better hygiene.

CHOOSING A WALL HUNG **WC & SUPPORT FRAME**

5 REASONS TO GO WALL-HUNG:

No.1 SPACE SAVING & MAXIMISATION

Attached to the wall - resulting in zero contact with the floor, wall-hung bathroom ceramics and wall-hung furniture have concealed cisterns and installation frames hidden behind the wall resulting in a reduced outward projection. Streamlining the aesthetic of the bathroom as well as delivering acoustic benefits - by opting for a wall-hung toilet or wall-hung furniture you will eliminate the clutter of conventional toilets which take up floor area and create the illusion of a more spacious bathroom.

Unlike close-coupled and back-to-wall toilet options, wall-hung solutions expose a greater cleanable surface area as there is no pedestal, cistern or exposed pipework leaving little space for germs or dust to accumulate. This makes wall-hung toilets the ideal choice for hotel lobby washrooms

NO.3 STRENGTH & DURABILITY

Geberit wall-hung toilet and furniture options are built to last. Contrary to popular belief, wall-hung solutions can withstand a weight of up to 400kg - which is the equivalent of a full grown polar bear. Once installed, Geberit wall-hung solutions have been cleverly designed for maintenance as the cistern can be easily accessed by simply removing the flush plate, ensuring hassle-free specification.

NO.4 AESTHETIC ENHANCEMENT

If you are looking to create a sleek and sophisticated design, specifying a wall-hung toilet or furniture will provide a modern yet functional washroom solution. Wall-hung toilets come in a comprehensive range of styles from rounded to square - with options for every project type and budget.

Opting for a wall-hung toilet solution is a sure-fired way to reduced sanitary sound in any washroom. Raising the toilet off the ground stops noise travelling directly from the toilet pan to the floor.

WASHROOM SOLUTIONS

DESIGN AND TECHNOLOGY FROM A SINGLE SOURCE

AURORA

The Aurora free standing bath epitomises modern elegance, a true centrepiece for any contemporary bathroom. Its design is sleek and minimalistic, featuring clean, flowing lines that suggest a modern sculpture rather than mere functionality. The brilliant white finish captures the light, enhancing its smooth contours and giving the impression of a seamless, integrated space. Standing alone, free from the constraints of traditional bathroom design, the Aurora transforms a simple bath into a statement of luxury and modern living, offering a sanctuary of peace where one can unwind in style.

KURVO DOUBLE ENDED BATH ROUND

The double-ended round bath presents a harmonious blend of functionality and aesthetic appeal, ideal for contemporary interiors. This bath, nestled gracefully into the bathroom layout, contrasts the typical free-standing models with its integrated design, allowing for installation flush with bathroom walls or within a bespoke enclosure. Crafted from durable materials, this bath not only promises a long-lasting presence in any home but also offers a modern twist on traditional comfort, turning any bathroom into a haven of relaxation.

MILAN DOUBLE ENDED BATH SQUARE

The square double-ended bath redefines modernity with its bold, geometric silhouette. This design merges sharp lines with symmetrical aesthetics, making it a standout feature for any contemporary bathroom. Both ends of the bath are identically shaped, allowing users to relax at either side with equal comfort and space, making it perfect for sharing. The squared contours not only contribute to a sleek, modern look but also maximize the internal bathing area, providing ample room for a deep and relaxing soak. This model combines functionality with style, embodying a minimalist yet luxurious approach to bathroom design.

KURVO SINGLE ENDED BATH ROUND

The single-ended round bath is a testament to modern simplicity and comfort, perfectly suited for the contemporary minimalist. With its smooth, circular design, this bath offers a cozy, enveloping space for a solo soak, prioritizing personal relaxation and peace. The rounded end gently cradles the bather, providing ample support for a long, leisurely bath, while the opposite side offers a sleek, flush finish that aligns neatly against a bathroom wall for efficient use of space. This model combines practicality being double reinforced with a touch of elegance, creating a serene retreat within any home.

CARRON BATHS

Carron Baths are hand finished to the highest quality and the complete range includes: Rectangular, Freestanding and Shower baths. Coupled with shower screens, panels and accessories.

Niko Bathrooms is the sole distributor of Carron Baths across the Republic of Ireland.

CARRONITE™ TECHNOLOGY

What is Carronite™?

Carronite[™] was created by Carron Bathrooms to provide a higher level of comfort, luxury and peace of mind for our customers. All Carron Bathrooms baths are hand finished to our exacting standards but only Carronite[™] baths, with our unique, patented, triple-layer reinforcement system come with a 30 year guarantee – proof of the confidence we have in Carronite[™].

CarroniteTM baths are stronger and heavier than standard acrylic baths. The additional finishing layers crafted during the CarroniteTM process create a uniquely reinforced product. The added weight requires a bespoke fitting system that only adds to the stability and rigid feel of our CarroniteTM baths. These elements combined help deliver the CarroniteTM experience.

Due to the extra finishing layers, Carronite[™] baths are able to keep water temperature levels hotter for longer. Up to thirty minutes longer in some tests.

The Frame

Created specifically for the Carronite™ Baseboard, this unique frame, and foot set uses the added weight and thickness of our baths to deliver additional stability and security.

The Finish

Specially formulated, our unique Carronite™ finish results in increased rigidity while the density of the material allows greater heat retaining properties.

The Base

Custom baseboards, cut to size for each Carronite[™] model, are applied by hand before the Carronite[™] finish is applied.

Note : Special Order Carron Product , 4–6-week delivery from Date of order *No return policy on Carron Special orders

BUILT IN BOX

FOR WALL MOUNTED BASIN MIXER

Compared with the traditional built-in mixer with diverter, the Remer built-in box has additional features that make it an item that was specifically designed for the construction sites needs. However, these boxes are becoming increasingly popular with end users due to their praticality. When designing your new bathroom it is important to consider the development stages for each of your bathroom fixture. These first fix boxes allow your plumber to get the pipe work ready for the installation of your new basin mixer while you have the time to consider which basin mixer design would suit your bathroom. Then simply choose from the mixer designs below.

AKW ARKA CARE SHOWER VALVE

This gorgeous, simple to use Chrome Mixer Shower provides a stunning centre-piece to any shower. It features an easy-grip shower head with five different spray pattern and simple push buttons to adjust the height of the shower head. This package combines the popular Mixer Shower along with our Mixer Shower Care Accessory Kit which mixes ultimate style and a subtle design along with strong support when showering such as the sturdy stainless steel grab riser rail and extended 2 meter long shower hose which is a great help for assisted showering.

Features:

- ▶ Integral stainless steal grab riser rail for additional support and peace of mind
- ► Easy grip shower head with grey rubber petals for quick spray pattern adjustment
- ▶ 5 Spray pattern settings for maximum showering comfort
- ▶ Extended 2 meter shower hose ideal for assisted showering
- ▶ Easy push buttons for shower head height adjustments
- ▶ Soap dish & shelf included as standard and situated within easy reach for user
- ► Additional shower head bracket for alternative positioning within the enclosure
- ► Hose retaining ring included to prevent shower head being dropped and contaminated
- ▶ 1 metre riser rail can support up to 150kg
- ► Fully approved by the Bathroom Manufacturers Association (BMA) as a Water Efficient Product

MINERAL SLATE STONE RESIN SHOWER TRAYS

The Mineral Slate ultra-low profile shower trays are expertly designed to complement all the latest bathroom trends. These solid and dependable trays feature a stone resin, slip-resistant slate textured finish that adds both style and safety to your space.

Traditional cast stone construction ensures durability, while their quick and easy installation makes them a practical choice for any bathroom.

With top access waste, these trays allow for effortless service and maintenance, making upkeep hassle-free. Tested to conform with BS EN 14527 standards, the Minerals slate trays are also suitable for less-able installations. Available in 3 stylish colours, they transform any bathroom into a modern and tranquil retreat, achieving a minimalistic wetroom aesthetic without the added costs of tanking.

ELEMENTS SHOWER TRAYS

The Elements range of low-profile shower trays is only 40mm high, and they lend themselves to the latest bathroom, including all the benefits of a solid cast stone shower tray. These shower trays suit any installation and are quick and easy to install.

The Elements shower trays are 40% lighter than a high wall stone resin tray, made of a solid cast stone with WRAS-approved phthalate-free materials. With 25 years guarantee, ABS finish and waste position W1.

TUFF FORM WETROOM FORMER

A wet room maximises the available space in your bathroom, offering a stylish yet practical showering solution. Our Tuff Form shower tray provides full, level access for a seamless and elegant design.

Not only do they ensure completely level access, but they are also 100% watertight, offering superior strength and rigidity. This guarantees excellent water integrity, while ensuring comfort and safety underfoot

TUFF FORM WETROOM FORMER

Features

- Suitable for both wooden and concrete floors
- · Compatible with both gravity and pumped waste systems
- Tuff Form formers can be trimmed on three sides by up to 150mm around the waste area
- · The ribbed underside design prevents slippage or floating during installation
- Provides superior strength and rigidity, ensuring excellent water integrity, comfort, and safety underfoot
- · Pre-formed fixing holes for ease of installation
- · Offset waste position to avoid joists and pipework
- Tuff Form depth is 22mm
- Fully recyclable and made from reusable plastic
- · Installed in tens of thousands of locations worldwide, popular and proven

HALF HEIGHT SHOWER DOORS

Our complete range of half-height care shower screen solutions for both alcove and corner installations can help you create the perfect showering environment. With lifetime guarantees you can be assured of the best quality available.

Designed and developed with healthcare, installation and technical professionals this range of solutions for tray or wet room installations that provide ease of use, ease of installation and raise the bar on quality to ensure a longer life.

Please note: Bottom door seals are water barriers, not water proof. If using a curtain, it should be long enough to protect the doors seals.

All prices include VAT | All dimensions are Height x Width x Depth and in mm | Taps not included

FURTHER DOC M PRODUCTION INFORMATION

DOC M

Fully compliant to BS8300:2009 guidelines for a unisex accessible WC.

2 tap hole wall mounted wash basin

This allows a mixer tap to be fitted left or right handed and with overflow for additional hygiene.

Thermostatic sequential mixer tap

TMV3 approved offering peace of mind to reduce risk of scalding, the thermostat is within the mixer (and not separate, as in the case of others). This reduces the risk of legionella bacteria forming between separate parts.

Easy operational flush handle

Allowing for flushing with elbow or hand. This also offers full and half flush operation for water saving. It comes in a non reflective stain chrome finish and can be fitted left or right handed. Conforms to EN 997.

Raised height WC

Set at 460mm high (480mm with toilet seat), its specially designed for wheel chair access. It comes with 4 fixing points.

Ergonomic toilet seat with lid

Metal hinges and lugs secure the pan for easier side transfer. In some doc m options its available in high visibility blue got users with impaired vision.

Cistern

Has a screw down lid for security and safety.

Grab rails

4 x 600mm long with concealed fixings (tested up to 190kg/33 stone weight). In some doc m options its available in high visibility blue got users with impaired vision.

Fold up grab rails

Tested to 190kg/33 stone weight. In some doc m options its available in high visibility blue got users with impaired vision.

DOC M PACK TYPICAL LAYOUT

- Sanitary dispenser
- 2. Alternative door position
- 3. Waste disposal bin
- 4. Shelf, installed 760mm above finished floor level
- 5. Wheelchair turning space (1500 x 1500mm)
- 6. Long mirror
- 7. Wall A (see side view)
- 8. Wash basin, this should project no further than 250mm from wall
- 9. Vertical grab rails
- 10. Mixer tap, installed on side of basin nearest WC
- 11. Two clothes hooks, installed 1050mm and 1400mm above finished floor level
- 12. Alarm pull cord
- 13. Horizontal grab rail
- 14. Sanitary disposal unit
- 15. Fold-up support rail
- 16. Vertical grab rail
- 17. Flush mechanism, installed on side of cistern furthest from wall
- Flat-topped, close-coupled cistern, provides back rest and colostomy bag changing surface for standing users*
- 9. Horizontal pull rail on outward-opening door

*Where low-level cisterns are used, a rail with padded back rest should be provided, and a colostomy bag changing shelf installed 950mm above finished floor level. Dimensions shown in millimetres.

NOTE: Examples shown are for right-handed transfer to WC

Doc M installation - Side View

- Wall A (see plan view)

FIXINGS

Security of all items is vitally important and it is essential that the fixing instructions with each component within the pack are followed.

Walls onto which rails, sanitaryware and fixtures are mounted must be suitable for load bearing and to take the fixings recommended and supplied.

W.C. - Fixed to floor using pan to floor fixings provided.

CISTERN - Fixed to WC bowl with fixings provided then plugged and screwed to wall using 2 x 50 mm No. 10 woodscrews - (not provided).

WASHBASIN - Securely fixed to a suitable solid wall using bolts and plugs - (not provided).

HINGED RAIL - Secured to wall using suitable heavy duty bolts and plugs - (not provided).

STRAIGHT RAILS - Secured to wall using appropriate screws and plugs - (not provided).

If in doubt over fixing, you should refer to a specialist fixing supplier such as Fischer Fixings: Help line Number 01491 827900.

THERMOSTATIC MIXING VALVE

Uses proven thermostatic technology for temperature control to a maximum temperature preset at 42°C, which can be adjusted if required.

MIXER TAP

A single lever provides blended water at a maximum safe temperature as provided through the thermostatic mixing valve.

6 Ltr FLUSH

The syphon is pre-set to deliver a 6ltr flush.

DRAWING No:-A25836

DIMENSIONS ARE IN - MM

Note 1

For overall cubicle dimensions please refer to Approved Document M or the Scotish Building Regulations.

A minimum manoeuvring space of 1.5mtrs x 1.5mtrs clear of the WC pan and any obstruction other than the basin bowl.

Niko Bathrooms Warranty Terms and Conditions

We understand that product issues can arise. At NIKO Bathrooms, rest assured that our products are designed to meet your needs and we fully stand behind them. If you encounter any problems, please don't hesitate to contact us with details of the issue and proof of purchase from an authorized dealer.

We want to ensure you know the warranty information for our products. Our warranties cover goods installed in homes under normal usage conditions. If you install our products in a public or commercial area, they will be covered by a 1-year warranty. If you encounter any faults, please report them within the warranty period, starting from the proof of purchase date, by contacting our customer service team with details of the issue and proof of purchase from an authorized dealer.

Our warranties cover manufacturing defects and failures resulting from production processes. However, they do not extend to damage caused by transit, misuse, or incorrect installation.

While all our products undergo strict quality control checks, there may be rare instances where a product or batch doesn't meet our quality standards. If you receive a product with a visible defect that doesn't meet the specified tolerances, do not fit it, and we will replace it. The installer must check for defects prior to installation, as we won't cover refitting or replacement costs due to the installation of defective products. This commitment to quality is our promise to you.

If you encounter an issue, please allow us to inspect the product in its installed state. If the product has been removed, please don't destroy it; keep it for inspection. We will request photographic or video evidence of the installed product. Additionally, please ensure suitable access is provided to facilitate the repair or replacement of a product under warranty. Keep in mind that we won't be responsible for the reinstallation of products.

To ensure the longevity of your products, it's essential to maintain them with a regular and appropriate cleaning routine. Gentle cleaning methods, such as a soft, damp cloth with warm, soapy water for chrome, brass, and aluminium surfaces, will help keep your products in top condition. Additionally, proper ventilation and removing excess water are essential to prevent any potential damage to bathroom furniture.

Please note that certain actions are excluded from warranty coverage, such as incorrect installation, failure to maintain the product according to care and maintenance guidelines, improper use, and damage from specific environmental conditions. Understanding these exclusions will help you make the most of your warranty coverage.

In the unfortunate event of a product failure under warranty, please know that we are fully committed to providing a replacement part, product, or repair as specified in the warranty duration. We are here to assist you in resolving any issues that may arise. In some cases, if our inspection reveals that the problem is not due to a manufacturing defect, a call-out fee may be charged. We aim to address any issues efficiently and effectively, ensuring your complete satisfaction with our products and services.

We want to make you aware that certain components, including hinges, ceramic discs, cartridges, seals, and cistern fittings, may undergo normal wear and tear over time, and as such, they are not included in the warranty coverage.

Furthermore, it's important to know that the warranty is specifically for the original purchaser and is not transferable. If you choose to sell or give the product to someone else, the warranty will no longer be applicable. We appreciate your understanding and support!

If you have further questions about our products, please call +353 01 400 0000 or email us your inquiry at sales@nikobathrooms.ie.

DISCLAIMER

All prices are recommended retail and include VAT at the current rate. The prices and specifications shown within this catalogue are for information purposes only and as we continually update our products, they may be subject to change without prior notice. E&OE. The images/photographs included are for guidance purposes only and are limited to the constraints of the printing process. All measurements are in millimeters, unless otherwise stated. This edition supersedes all/any previous editions. Though all of our products carry a guarantee, as stated, which covers against manufacturing defects when used in normal domestic applications (excluding serviceable parts, accidental damage neglect or abuse), please ensure that your product is fitted/installed by a qualified installer and according to the manufacture's instructions. Certain movable parts may be subject to wear and tear through usage and are therefore covered for 12 months from installation – unless otherwise stated. The guarantees stated will never cover any consequential loss. Full terms and conditions are available upon request.

Book a visit to our Showroom.
